

THE Gleichen Call

TWENTY-THIRD YEAR No. 6

GLEICHEN, ALBERTA, WEDNESDAY, MAY 1, 1929

SUBSCRIPTION \$2.00 PER YEAR

Presentations & Banquet Given Hockey Champs.

In the presence of over 100 men from Gleichen and district was celebrated the presentation of the Morgan trophy earned by the Gleichen Gunners Hockey Team, Alberta's Provincial Champions of the B. series in the Intermediate play-off. Mayor Purcell occupied the chair for the occasion. After a sumptuous banquet, speeches followed and toasts followed toasts. D. Hutcheson, manager of the Royal Bank of Gleichen, made the actual presentation of the beautiful cup, which was replied to by Major Lewis. Wm. McConnell also spoke replied to by Al Wilson, captain of the Gunners. T. H. Beach made the presentation of the medals of honor given by the citizens of Gleichen to each member of the championship team with most appropriate remarks well suited to each individual player: Jack Moss (winner); Campbell Brown; Bill Taylor; Pat Beach; Coach H. W. Macellus; Tiger Lyon; Al Wilson; Walter McKay; Geo. Rishaug; Tom Johnston; Bob Brown; Wm. McConnell, the official time-keeper was specially mentioned for his loyal support to the team. Great credit is due to Mrs. R. W. Brown, who, with the help of a few ladies, arranged and successfully carried out a banquet for some 100 men. The evening will live long in the memory of the Gleichen hockey fans and particularly the members of the Gleichen 22nd Battery, Regimental Hockey team, the "Gunners".

Community singing was also indulged, which had to be curtailed as well as the speakers owing to the dance which followed the presentation. Photos of the champion team are to be obtained, when the CALL hopes to produce a cut in these columns and also a record of each individual player.

THE CALL WELL READ

Rev. R. N. Matheson, who was pastor of the Gleichen United Church for several years writes the CALL from Kimberley, B. C., where he now resides, from which the following is extracted:

We have at least, two Gleichen representatives here, Mr. and Mrs. James Thompson. They lived on a farm over by Hammer Hill school somewhere. Then Mrs. Forteach when she was Miss Archibald she served as stenographer in the Canadian Bank of Commerce at Gleichen.

The Call goes around them all. It is well read and much appreciated. We have noted among the many changes that Mr. Peter Maclean has gone to Calgary. I recall one line of a poem written after the death of Sir John A. MacDonald:

"What! can there be a House and Members here, and no John A?" Hugh is employed in the Bank of Commerce and has been transferred to Fernie, in the Crows Nest Pass. Years bring changes in many ways.

"HIS DESTINY" MAY 8th and 9th

The picture "His Destiny" is coming to the Gleichen Community Hall, Wednesday and Thursday, May 8 and 9. It is more than a picture; it is grim reality that arouses every human emotion and causes amazement at the startling situations that follow in rapid succession, when men and beast battle for supremacy in the great stampede scenes as well as the thrilling Buffalo hunt, wild horse stampede and cattle round-up in which Indians and men of every type figures in the enactment of this powerful story with an enchanting love episode running through it, and bits of pathos lightened by humor, all so evenly balanced that it makes perfect entertainment. Don't miss THIS.

CARD OF THANKS

Mr. Ingraham and family desire to express their most sincere thanks to one and all who have been as kind to them in their great bereavement, and also for the great number of floral offerings sent them.

LON CHANEY IN JUNGLELAND

"West of Zanzibar," a Metro-Goldwyn-Mayer production, with Lon Chaney as the sinister "Dead Legs Flint," paralyzed "white voodoo" of a savage African tribe, is the attraction, coming to the Gleichen Community Hall May 4th. The new Metro-Goldwyn-Mayer production, a grim drama of primitive emotions in a wild jungle, shows Chaney in one of the most remarkable of his roles, that of a former stage magician who paralyzed in a fight with the man who stole his wife's love, follows his enemy into the Dark Continent, using his magic to terrorize and rule savages and to wreak a terrible revenge.

The dramatic climax of the story is one of the most gripping and shocking denouements literature has ever produced, and through it all runs a delicate romance, this thread being carried by Mary Nolan, as the magician's daughter, and Warner Baxter, a renegade physician in the jungles, who finds regeneration in her love.

Lionel Barrymore plays the enemy whom Chaney relentlessly pursues, and Kalla Pasha, Roscoe Ward, Jane Daly and others of note are in the supporting cast.

Tod Browning, responsible for "The Unholy Three," "The Road to Mandalay" and other outstanding Chaney hits, directed the new production.

ARROWWOOD

The baseball boys are preparing for some good games this season.

There is some talk of beautifying the Arrowwood cemetery this season.

No work as yet is being done to complete the railroad on west, as promised.

The movies of April 27 at the curling rink were enjoyed by a large crowd.

Lyle Bros. have a new real estate office building north of the Bank building.

Dr. and Mrs. Alexander's little two-year-old boy is reported dangerously ill at Arrowwood.

Arrowwood is still growing. There are one or two private houses under construction at present.

Steps are being made to make Arrowwood's annual Sports Day, June 3rd, the best ever.

It is reported Mrs. R. R. Saunders has purchased a building to use as the Telephone exchange office in Arrowwood.

There are many pupils out of school yet, owing to the mumps, which has been with us since the Christmas season.

The Arrowwood School orchestra gave us a good program at Easter and we should enjoy another musical program from the pupils at any time.

Farmers found much moisture in the summerfallow at seeding, and with the rain of last week and this are looking forward to another good crop.

The Arrowwood Hotel building is being pushed and it is expected to be ready for business the fore part of May. At present Mrs. Horning is serving meals in the dressing rooms of the curling rink.

Frank Kelsey, aged 67 years passed away on Tuesday, April 10th. The funeral services were held at Mr. Culp's home at Arrowwood on Wednesday, with Geo. W. Evans in charge. He was highly respected by all those who knew him and had resided at Arrowwood about three years.

J. J. Marshall of Calgary spent a few hours in Gleichen last Friday inspecting the local stock yards for the Dominion Government. This is his busy season as he has to inspect every yard in Alberta from the Peace River country to the American boundary line. While here he met a few of his old friends, who were glad to meet him. It is about 15 years since Jack moved from Gleichen to Calgary.

O. Desjardine has been busy shipping hogs this week.

MAY 24th SPORTS PROMISING

FOUR TEAMS NOW ENTERED
FOR BASEBALL TOURNAMENT

SPLENDID PROGRAM FOR EMPIRE DAY

May 24th for more than thirty years past has been duly observed by the people of Gleichen and district and the 1929 observation will in no wise be less than any of its predecessors. Rather it now promises to be one of the most attractive holidays Gleichen folks have ever attempted in good clean sport for young and old.

The various committees in charge have already made splendid headway and nothing will be left undone towards entertaining the huge crowds that annually gather at the Gleichen Fair Grounds.

The old rivals in baseball tournaments have all agreed to be on hand, and when it is known that Queenstown, Arrowwood, Carseland and Gleichen are once more to contend in tournament the crowd is assured as each have their admirers and a crowd of fans to boost the men to victory.

The sports for the children is ever interesting for who is there that does not like to see the eagerness of the kiddies to win?

The midway also promises fun galore that is sure to please the adventurers and are out to have some real fun.

The dance too will be attractive and provide a gay time away on into the next morning.

"THE PROBLEMS OF BRITISH ADMINISTRATION IN INDIA

Mr. Allen an Ex-India Civil Service Man to
Lecture at Gleichen Canadian Club

COMMUNITY HALL, TUESDAY, MAY 7TH

Mr. Basil Allen, C.S.I., who is to address the Gleichen Canadian Club next Tuesday, night, May 7th, was educated at Corpus Christi College, Oxford. He was president of the Oxford University Athletic Club and a running blue. In India Mr. Allen, in the course of his duties, was brought in close touch with the Indian peasant. He served at headquarters and was chief secretary to his government, a post that gave him wide acquaintance with administrative problems. He was a member of the old pre-reforms legislative council of the Vice-roy and became a member of the new Indian Legislative Assembly. In this Assembly he held the important post of chief government whip, bringing him in touch with politicians of every shade of opinion from all points of India. During the war Mr. Allen commanded an Indian Labour corps. He retired from the Indian Civil Service in 1926, after some thirty years service in different parts of the country. All will be anxious to hear this distinguished gentleman.

CO-OPERATIVE EXPERTS TO VISIT PEACE RIVER

Two combined institutes of co-operation and agricultural short courses will be held in the Peace River country this season, it is announced by Hon. George Hoadley, Minister of Agriculture. These will be at Fairview on June 18 and 19 and Grande Prairie on June 20 and 21. It is expected that a number of outstanding speakers who will address the co-operative institutes to be held at other points in the province during the last week of June will be able to attend the northern meetings. Included in the program at each point will also be a number of addresses on various phases of agriculture such as have proved so popular to the agricultural short courses held at other points in the province during the past winter.

As the result of the success of the Albert Institute of Co-operation held last year at Edmonton, the first of its kind in the Dominion, it has been decided to hold three similar gatherings at various points in the province during the coming season. These will be held at Lethbridge, Olds and Vermilion during the week of June 24 to 28. A number of authorities on various branches of co-operative activity will address these meetings which will undoubtedly be attended by large numbers of farmers interested in the problems of co-operation.

Jack Clark, who has been the popular teller in the Bank of Commerce for a long time, left Monday for Tabor, where he will reside in future. He leaves many friends in Gleichen who regret his departure.

Chas. J. Bray, formerly mayor of Gleichen, spent Friday night in town and all were pleased to see him at the hockey boys banquet. He is now residing in Calgary.

Dr. A. W. Bowles is now associated with Drs. Gunn and Hackney in the Herald Building at Calgary.

Lou Michael and Bill Taylor are now fitting the convent at Rockyford with water and heat essentials.

Read L. F. Christenson & Co.'s Ad in each issue of the Call and save money.

Jim Moe is applying his delicate touch of the brush to the Gleichen Hotel.

AUTO STRUCK BY ENGINE AT CLUNY

While crossing the railroad track at Cluny station Thursday afternoon, James McGillivray of Vanguard, Saskatchewan, who was accompanied by his two sons, J. A. and Eugene, failed to observe that C.P.R. passenger train No. 4 was just pulling into the station, with the result that their car, a light truck, was struck by the locomotive and severely damaged.

Fortunately, the train was about to come to a standstill and was travelling very slowly, so that the impact was not sufficient to throw the car, which was merely pushed along the track sideways for a short distance, the occupants escaping with a few bruises and minor abrasions. They were proceeding to Edmonton and after purchasing a new truck, were able to proceed on their journey.

Gleichen's annual Empire Day sports promises to be bigger and better than ever.

SOME GOOD USED CAR VALUES

1927 Essex Coach \$650
1926 Ford Coupe \$350
1925 Ford Coupe \$250
1928 Ford Coach \$750

These cars have been thoroughly overhauled.

Canada At War!

Canada is at war, and with the passing of winter, operations are being renewed and extended on all fronts against the common enemy. Happily, it is not warfare directed against any other people or nation, nor, in the final analysis, is it a destructive, life-taking, money-losing campaign in which the Canadian people are engaged. Rather, it is constructive, life-giving, money-making battle that is being waged.

The war to which reference is made is an unceasing one. It can never end, and victory can never be wholly complete. On the other hand, unless the battle is fought, and renewed from year to year, defeat for mankind is sure and inescapable. It is a case where eternal vigilance is the price that must be paid for life, liberty and happiness.

It is a war against dirt, disease, insects, bacteria.

In the spring of the year, as snow disappears and the frost leaves the ground, exposing the accumulations of winter, it is imperative that every householder, every community, "clean up." Failure to do so may, and in all probability will, result in an epidemic of sickness, not to speak of the unwholesome effect upon the mentality and habits of people living amidst unsightly, disagreeable surroundings. The necessity of an annual spring "clean up," and the maintenance of clean surroundings, and sanitary conditions throughout the warm summer months, is applicable alike to the farm and farm home, and the urban community and home.

The danger of the common house fly is now too well known to require emphasis. It is the greatest distributor of the filth and disease breeding germs upon which it thrives and breeds its countless millions. Destroy its breeding grounds and the battle is more than half won. When the first fly puts in an appearance, kill it, and you will be saved the trouble of swatting hundreds later on.

Then there is that most unpopular little humming bird, the mosquito, which turns so many of our long and lovely summer evenings and our beautiful summer resorts and sports grounds into places of torture. By taking early action this almost universal pest can be largely controlled. For years the citizens of Winnipeg have had life made miserable for them by mosquitoes, and each season witnesses more energetic and concerted effort to destroy them. Regina, no worse sufferer than other places, is this year, under the direction of the Klansmen Club, assisted by other service clubs, the health authorities, Boy Scouts, and other organizations, taking part in the battle.

The mosquito breeds by tens of millions in stagnant water. Pools of stagnant water, slowly drying up sloughs, partially filled ditches, cannot be drained, nor can their existence be wholly prevented, but through the simple expedient of scattering coal oil, and other oils, in these stagnant waters, these millions of potential mosquitoes will be destroyed. Regina is surveying the city and its surroundings from the air, thus detecting every spot of stagnant water, and these are to be impregnated with oil. If all our towns and villages locate these pools of stagnant water in and about them and take like action, life will be made more comfortable and enjoyable.

When cleaning oil out of your motor car, tractor engine, or other machinery, do not throw it away. Save it, and spread it about in any stagnant water in your vicinity, and sink your old oil-soaked rags with a stone in such pools. By so doing you will prevent the breeding of mosquitoes.

This great and holy war is being waged in other directions and in even intensive fashion. Departments of agriculture, and the research departments of our Universities and the National Research Bureau in laboratories and in the fields, have for some years been engaged in the task of finding a means of eradicating rust from wheat, which takes its toll of tens of millions of dollars from the farmers of the prairies. According to latest authentic reports gratifying progress has been made, and the experts engaged in this work are now fairly confident they are on the right track, and that before long a rust resistant wheat will be developed, fully equal to other wheats in its early ripening ability, in yield per acre, and in its bread making qualities. Such a victory will bring huge rewards for the time and money expended. It is a form of constructive warfare which will reimburse Canada for many of its losses occasioned by destructive human war.

Agricultural and health departments of governments are in the van of this great, never-ending battle. The larger municipalities and many other communities are awakening to their responsibility. Semi-public organizations of many kinds are joining in the fray. As was the case in the Great War, scientists are doing their part, and doing it well. But as the Great War developed into a struggle between peoples, rather than armies and navies, in which every man and woman had a duty to perform, so in this other war in which Canada is engaged, everybody must be enrolled if the largest measure of success and victory is to be achieved. This is a war which recognizes no defined boundary lines; it must be waged everywhere; if the enemy remains unmolested in any one place or district, or even on any individual homestead, victories elsewhere will be of little avail. It is a universal war, demanding the active co-operation and alert vigilance of all.

A college president says the young man's most difficult problem is choosing the right girl to marry. Which proves that the president has funny ideas as to who does the choosing.

Insanity is said to be decreasing. Maybe it's because so many things that used to be considered crazy aren't any more.

Religious Groups In House
Roman Catholics form the largest religious group in the Canadian House of Commons, about 30 per cent. of the total membership. Adherents of the United Church come next and Presbyterians follow.

Shakespeare is credited with having a working knowledge of about 23,000 words.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville. Half a teaspoonful of Nerville in water makes a most efficient gargle. The germ-killing properties of Nerville quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerville. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerville and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Canadian Poultry Record Good

British West Indies and Other Countries Satisfied With Shipments

Breeding poultry carrying record of performance certificates are commanding wider and wider markets as their qualities become known. Some good shipments have been going forward to the British West Indies. The most recent shipment consisted of seven record of performance approved White Leghorn cockerels. This order followed a larger one of ninety-one birds shipped to Trinidad last September. H. S. Arkell, Dominion Live Stock Commissioner, announces that reports from the purchasers of these birds indicate that Canadian-bred poultry are giving every satisfaction in the southern temperatures.

RADIANT GIRLHOOD

Comes Through Rich, Red Health-Giving Blood

A girl with a full-blooded body and vital nerves has the foundation of an active, healthy life. Allow her to grow waned and delicate and prolonged ill-health and general weakness may be the result. Many women who ought to be in the very prime of life are too frequently sufferers of headaches, back and side aches, easily tired and breathless, because of anaemia which stealthily attacked them in girlhood.

But fortunately there is a remedy within easy reach. Thousands of tired, worn-out women and delicate girls who have sought the self-help of Dr. Williams' Pink Pills are grateful for the way in which these pills have restored them to robust fitness. The effective tonic and nerve restorer always helps to make plenty of rich, red blood that speedily puts an end to anaemia. A waned, delicate girl, or tired, weary woman soon becomes brighter when this new blood courses through the system. Color comes to her cheeks and lips; her appetite increases; her nerves are steadied, and she becomes vital and active again. The following is an example, from among thousands, of what these pills have done and can do: Miss C. J. Martin, Kitchener, Ont., says: "For several years I was greatly distressed with pains in the back and sick headaches. I felt tired all the time, did not sleep well and had a poor appetite. I had been doctoring, but did not get much relief. My sister advised me to try Dr. Williams' Pink Pills and after taking six boxes I felt like a new person, and will not be without the pills again."

You can get the pills from your druggist, or by mail at 50 cents a box from 'The Dr. Williams' Medicine Co., Brockville, Ont.

Exports Tea In Lumps

China exports tea in solid lumps, like bricks, for consumption in Tibet and Siberia. The tea-leaves are pulverized, mixed with water, and moulded into hard cakes. The bricks weigh about 5 lb. each. In this form tea can be carried overland more easily, as it occupies less space.

Nervous and Run Down The Least Noise Would Bother Her

Mrs. R. Burton, Oshawa, Ont., writes:—"Three years ago I was so nervous and run down I could hardly bear to have the children make a noise it would bother me so."

"A friend advised me to take

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Scientists in Russia are working on a device to keep the blood of a person in circulation and thus prolong life after the heart and lungs have ceased to function.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

Had Many Rulers

Warsaw, the capital of Poland, has in turn been ruled by Sweden, Austria and Russia. In 1807 Napoleon made it the capital of the Duchy of Warsaw and during the World War it was captured by the Germans, who held it until peace restored Polish independence.

Train Of Tractors

A special train of tractors, valued at \$400,000, recently reached Regina. There were 280 machines in all, occupying 70 railway cars. The tractors were distributed to farmer buyers in Saskatchewan and Alberta.

Red Cross Work

Junior Red Cross Is Recommended To Alberta Teachers

At the recent annual convention of the Educational Institute of Alberta, where over a thousand teachers were in session, many new and interesting methods were discussed in the realm of pedagogy.

Accepting the dictum that modern education seeks to develop the personality of each scholar and his individual activity, it was admitted by many teachers that Junior Red Cross supplies an educational need in a manner that no other organization within the school can. It offers media for teaching hygiene, citizenship and in its class organization provides a channel for a child to express his altruism, by serving his fellow, especially those who are sick and suffering.

Honoring the experience of many teachers who have established Junior Red Cross in their schools and thereby raised the school standard of health and sanitation to a fine point, personally and publicly, and recognizing the great benefits accruing to the children in the conduct of their own Red Cross meetings, the Alberta Teachers Alliance went on record at their Annual Meeting as endorsing and recommending Junior Red Cross in the schools of the province.

Recipes For This Week

(By Betty Barclay)

LUNCHEON DELIGHT

- 4 eggs.
- 1/2 cup grated cheese.
- 1/2 cup soft bread crumbs.
- 1/2 teaspoon salt.
- 1 cup white sauce.
- Few grains cayenne.

Break the eggs into buttered baking dish and cook in hot oven until they begin to turn white around the edge. Then cover eggs with white sauce, and over this the mixture of crumbs, cheese and seasonings. Brown in very hot oven, so eggs will not be overcooked by time cheese is brown.

PEANUT RICE SALAD

- 3 tablespoons rice.
- 1 cup orange juice.
- 1/2 cup finely chopped peanuts.
- Cream cheese balls.

Wash rice and cook for 7 minutes in boiling salted water; drain. Cover with orange juice and cook in double boiler until rice is tender. Cool, mix with finely-chopped peanuts; sprinkle with salt and arrange on lettuce leaves with cream cheese balls. Serve with cream mayonnaise or French fruit dressing.

All rare books and manuscripts in the National Library of Mexico are to be photographed to make recovery easier when stolen and to perpetuate their contents.

TIRED, WEAK, NERVOUS WOMAN BENEFITED

Praises Lydia E. Pinkham's Vegetable Compound

Asbestos Mines, Quebec.—"After the birth of my second child, I was always feeling tired, nervous and weak and had headaches, backaches and terrible pains every month. I suffered two years before I tried Lydia E. Pinkham's Vegetable Compound. I got four bottles at first and it did me a world of good. I would not be without it in the house now, and have another six bottles in. I recommend it to every woman I know."—Mrs. T. BARRITT, Box 114, Asbestos Mines, Quebec.

W. N. U. 1742

Canada and Disarmament

Furthest Advanced Of All Nations On the Road To Peace

Of all the nations represented when the League of Nations' preparatory commission on disarmament convened at Geneva, Canada claims to have advanced furthest along the road in disarmament. That is, if all forms of armament, including frontier protection are taken into consideration.

Canada is represented in the deliberations by Dr. W. A. Riddell, Canadian advisory officer at Geneva, with Col. George Vanier as technical adviser. The Canadian delegation may possibly have some suggestions to make at a later stage in the proceedings, their part being largely dependent on the turn of events.

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless, thousands use this wonderful remedy and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

Manitoba Farm Loans

Three hundred and four applications for loans totalling \$733,242 were made to the Manitoba Farm Loans Association during the fiscal year ending April 30th, 1928, according to a report tabled in the Legislature. This makes 9,420 applications, aggregating \$25,619,493 filed since the commencement of the association's activities in April, 1927.

THESE SIMPLE RULES MAKE TEETHING EASY

Be careful of Baby's diet during teething. Do not overfeed him. Watch his stomach and bowels and at the first sign of indigestion, gas or constipation, give him a few drops of harmless, pleasant-tasting Fletcher's Castoria. These simple rules are making teething easy on millions of babies—and mothers, too. For over thirty years Castoria has been the trusted standby of mothers everywhere. It soothes wakeful, cross babies to sleep quickly and easily—and it's purely-vegetable so you can give it as often as needed. It does the work of castor oil better and more gently. For your protection, the bottle of genuine Castoria always bears the Fletcher signature.

Available To Everyone

No Person Too Poor To Possess Good Manners

There are many things in life that we would like to possess, but not having the wherewithal we must do without. On the other hand, there are things available to rich and poor alike if we only take the pains to acquire them. Among the latter we may class "good manners." The best time to learn and practice good manners is in youth. Therefore it is incumbent upon parents in particular to see that their children are taught some of the simple rules of etiquette in early life. The words "please" and "thank you" are too infrequently used by many of our girls and boys; yet how simple once you have become accustomed to use them.

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels untenable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

Quest For Minerals

Airplane Being Used In Hinterland Of Alberta For Carrying Prospectors

Daily "Punch" Dickens, of relict expedition fame, is flying between McMurray and Fort Resolution in Alberta's northern hinterland, carrying prospectors to near-Arctic points in their quest of minerals. The claims that are being investigated lie 10 miles south of Great Slave Lake, and 40 miles southwest of Fort Resolution. Once the ice starts to break up in the northern lakes and rivers aircraft cannot be employed until summer on account of the absence of landing places.

"We are now," announced the guide, "passing through a rural hamlet."

"Oh," exclaimed the sweet young thing, "I thought a hamlet was a little pig!"

Neuralgia succumbs to Minard's Liniment.

THE SECRET of Skin and Hair Loveliness

IN THE regular daily use of Cuticura Soap and the occasional use of Cuticura Ointment, women everywhere have discovered the secret of natural beauty. The Soap, fragrant and pure, to cleanse; the Ointment, antiseptic and healing, to remove pimples and irritations. Soap 25c. Ointment 25c. and 50c. Telcum 25c. Sample each free. Address Canadian Depot: J. T. Watt Co., Ltd., Montreal.

Frost Kills Insects

Hard Winter Expected To Be Factor For Eliminating Pests

The winter of 1928-29 was a hard one on insects, scientists at the Dominion entomological laboratory at the University of Saskatchewan believe. A self-recording thermometer, the bulb of which was three inches below the soil level, registered 11 degrees below zero on March 9, the lowest recorded during the past ten years.

The effect will be severe on insects as the majority hibernate at a depth of two to four inches. The lowest temperature recorded beneath the soil in the winter of 1928-27 was 14 degrees above.

A Real Asthma Relief. Dr. J. D. Kellogg's Asthma Remedy has never been advertised by extravagant statements. Its claims are conservative indeed, when judged by the benefits which it performs. Expect real relief and permanent benefits when you buy this remedy and you will not have cause for disappointment. It gives permanent relief in many cases where other so called remedies have utterly failed.

Ahead Of Schedule

First India-England Air Plane Made Trip In Seven Days

The first India-England aeroplane arrived at Croydon two minutes ahead of schedule. The air liner carried five passengers, 500 pounds of mail and negotiated the 5,000-mile trip from Karachi in seven days.

One of the passengers was Vice-Marshal Sir V. Vivian, who left Croydon on March 30 on the inaugural mail liner to India, arriving at Karachi April 6. He departed on the return flight within 24 hours, having thus covered 10,000 miles in fourteen and a half days.

Alberta Coal For East

It is indicated that Alberta's coal shipments to Ontario during the special rate period will aggregate 200,000 tons.

Keep Your Farm Up-to-Date This Inexpensive Way

For Farm Homes

Faded or cracked walls and ceilings detract from the pleasure of farm life. Hundreds of farm owners, realizing this, have transformed their rooms into bright, colorful interiors by applying Gyproc over all the old, ugly surfaces—then decorating. Remarkably attractive results are thus achieved at small cost. Every room becomes much more beautiful, livable and up-to-date.

Barns and Poultry Houses

Gyproc lined barns and poultry houses provide the best protection against fire, cold, heat and vermin that your stock can have. You can erect strong, rigid Gyproc sheets yourself in short time and at little expense. After a few months you will be delighted with the improved health of your cattle and the increased laying capacity of your flock.

Utilizing Waste Space

Those musty, inaccessible waste spaces in your attic and basement! Why not convert them into extra rooms by erecting Gyproc walls and ceilings? You can have a playroom, a laundry room, a workshop, a special preserving closet or any other kind of room you wish.

For fast, economical, fire-proof construction on the farm there is nothing to equal Gyproc. Write us for information or see your nearest Gyproc dealer.

Plan To Readjust The Capitalization of Public Owned Railways

Ottawa.—For the first time since the creation of the National Railways system, the government of the day, through a responsible minister, has turned itself to the policy of readjusting the capitalization of the public owned railway.

In the special committee of the House of Commons which deals with matters of the National Railways, this question was discussed, and Hon. Charles A. Dunning, minister of railways, stated unequivocally that he regarded the recapitalization of the system as being of "very great importance" and that the government desired at the earliest possible moment to deal with it.

Curiously enough, opposition to the recapitalization of the National Railways arose immediately after the Conservative members of the committee. H. I. Hanson, Conservative member for York-Simcoe, has taken a leading part in the work of the committee, at once asserted that the carrying out of such a policy would bring demands for reductions in rates. He thought this was a very strong argument against any action being taken.

Mr. Dunning and Sir Henry Thornton, however, held out for the recapitalization, pointing out the immeasurable advantages which would flow and asserting that in this way could Parliament deal justly by the able and conservative members who are endeavoring to make the system a complete success. They pointed out that their best efforts are being taken in overhauling the needs of the huge, unsteady and antiquated capitalization.

Mr. Dunning introduced the subject and in the course of his remarks made it quite clear that the action probably would be taken. This session had not been for the intervention of joint shareholders of the old Great Trunk Railway, who are seeking the right to use the government for compensation on account of their securities.

He failed to inform the committee as to whether or not the government would permit these shareholders to take action in the courts, but it is commonly believed that it will be denied and the case carried to the civil court.

Increase In Manufacturing

Products Of Prairie Plants Last Year Much Greater

Winnipeg.—Manufactured products of the prairies during the past year exceeded the sum of \$27,000,000 in value, according to J. W. McLaughlin, secretary of the prairie division of the Canadian Manufacturers' Association, at the annual meeting of the association.

Utilization of the mineral wealth of northern Manitoba and Saskatchewan, and exploitation of Alberta's oil resources promise tremendous increases in the industrial output in the three central provinces, he stated.

Organize Wheat Pool

Linton, Neb.—Wheat-railers of Nebraska and Wyoming to the number of 200 have effected organization of a wheat pool, giving it the name of the Middle West Market Association, non-stock co-operative of wheat growers to represent 15,000 grain raisers in the two states and was declared to be the largest in the middle west.

Air Survey Completed

The Prairies, Man.—Arriving here, Captain Charles Munro, pilot, and party have just completed an aerial survey of the northern prairie which took them into the northern voyage, far beyond Fort Churchill, Manitoon, passing through the northern seas and of the inhabitants, the Eskimos, were taken. This was the main objective of the journey.

Princess Celebrates Birthday

London, England.—Viscountess Alice, the only daughter of the King and Queen of England, being 25, arrived in Britain as Princess Mary, celebrated her thirty-second birthday April 25.

Cable Is Restored

Halifax, N.S.—The Halifax and Bermuda cable, which has been out of use for some time, has been restored, re-establishing direct communication between Canada and the British West Indies, via Bermuda.

Airmen Killed At Toronto

Machine Went Out Of Control and Crashed Near City

Toronto.—Neil Marshall and William MacKenzie, residents of Toronto, were killed when their aeroplane went out of control and crashed near the Leslie flying field.

It was reported that MacKenzie, who had but recently been granted a pilot's certificate, was in charge of the Gray Motor plane with Marshall, a qualified pilot, as a passenger. The plane was reported to have been but 100 feet from the ground when it went out of control and crashed in such a manner the engine burst into self.

Calendar Expert At Ottawa

M. B. Colworth Discussed Matters With Government Ministers

Ottawa.—To aid in the suggested establishment of a department of time in Canada to consider proposed calendar reform and its effect on the Dominion, M. B. Colworth, an expert in time, N.Y. originator of the 13-month calendar idea, has paid a special visit to Ottawa. He was conferred with by Dr. O. D. Skelton, under secretary of the National Bureau of Standards, and by Hon. J. H. Coats, Dominion minister, respecting his proposition.

Answers King's Message

Viscount Willingdon Sends Reply On Behalf Of Dominion

Ottawa.—On behalf of the Canadian people, His Excellency Viscount Willingdon, governor-general of Canada, despatched a message to His Majesty King George, expressing joy over the "glorious tidings" contained in the affectionate cable sent by His Majesty to his subjects throughout the Empire.

The message follows: "We are rejoiced by the greatest joy and gladness by your loyal people of Canada on whose behalf I beg very respectfully to thank you for the glad tidings contained in the message which have been filled with anxiety and sympathy for your Majesty's serious illness. We can now rejoice that your Majesty is well and that the anxiety which has been relieved from the strain of anxiety which has endeavored to reach your Majesty's heart. We trust we are long to have the opportunity of meeting you and your Majesty's subjects throughout the Empire in prayer of thanksgiving for your recovery and in a profound hope your Majesty may be long spared to reign over your loyal and devoted people."

Succeeds Lord Revelstoke

Part of the Canadian Adm. director of the Bank of England, and noted English financial expert, has been appointed to succeed Lord Revelstoke as head of the British delegation at the preparatory disarmament conference of the League of Nations.

The Associated Press correspondent has received the impression that France would place no obstacle in the way of such a preliminary understanding. It did not affect her position in relation to other continental powers.

The high-spirited and forceful speech of Hugh R. Gibson recently given at the annual meeting of the preparatory disarmament conference, was a masterpiece of eloquence and logic.

France desired to hasten general reduction in armaments and hoped to submit a draft treaty to the September assembly of the League of Nations, thus permitting an international conference by 1930.

This would involve a second session of the preparatory disarmament conference during the present summer.

The British delegation, headed by Lord Revelstoke, was announced in the House of Commons recently by the prime minister, Mr. Lloyd George.

Germany Wants Aerial Bombs Abolished

But Objections Were Raised By Several Countries

Geneva.—The German proposal to abolish the use of aerial bombs in warfare was defeated before the League's preparatory commission on disarmament. Only five countries were in its favor—Sweden, Holland, China and Russia. Those against it, including Canada, the U.S. and Great Britain, registered their objections with a rider that a negative vote was not to be interpreted as in any way authorizing the use of aerial bombs against civil populations.

Count Von Bernstorff, of Germany, pointed out the toll that could be exact

WHAT KILLED ADA ?

When Ida, a famous ostrich o.
the London Zoo, passed away some
time ago, to the grief of all who
knew her, there was much specula-
tion as to the cause of her untimely
death. To try to determine the mat-
ter, a postmortem examination was
held, according to the Associated
Press, which reports that the follow-
ing assortments of material was
found in her ample gizzard.

"Two women's handkerchief, a
man's handkerchief, three gloves,
three feet of cord, an empty film
spool, a four-inch nail, an eight-
inch lead pencil, four half-pennies,
two farthings and a French coin
part of a celluloid comb, part of a
rolled gold necklace, a collar button,
a bicycle-tire valve, a brass winding
key for an alarm clock, a dozen bits
of wire, metal staples, screws,
small nails, and copper rivets, glove
fastener and a piece of wood four
inches long."

The dispatch did not disclose just
what the verdict was, but a mere lay-
man might venture the thought that
Ida had suffered from something
akin to indigestion.

SOVIET RAILROADING

An amazing state of affairs in
connection with the government-op-
erated railroads of Russia was dis-
closed by a recent investigation of
the appalling number of accidents
occurring last year, which totalled
14,500 as against 6,000 in 1913.

On one line 500 miles long there
were 61 accidents in 1927, in which
60 persons were killed and 800 se-
riously injured. More than 80 per
cent of accidents on Soviet railroads
were caused by negligence of train
crews or other employees.

Four persons were killed and 16
injured in a collision which occurred
when engineer and fireman were
playing cards with the train run-
ning full speed. A drunken station
master deliberately shunted one
train into another just to see "how
much of a collision it would be." Sev-
eral trains failed to reach their destina-
tions because they were sent hun-
dreds of miles off their course by
switchmen for a joke.
These findings of a Soviet inves-
tigating commission were reported by
the International News Service as
an illustration of the demoralization
which exists in Russia under the
present Communistic regime.

CANADIAN GIRL PIONEER

In these days, when apparently no
limit is set on the ambitions of wo-
men looking for a "career," it is not
surprising to find them engaged in
unusual activities in unusual places.
Among those who have left the beat-
en path seeking adventure and for-
tune, few have displayed greater
pluck and enthusiasm than Miss
Kathleen Rice, a native of St. Mary's
Ontario.

Miss Rice, an honor graduate of
Toronto University, found school
teaching too prosaic and about four
years ago set out for northern Man-
itoba, 400 miles north of Winnipeg,
where she homesteaded a quarter-
section farm, cleared land and built
her own cottage.

Later she took to prospecting for
minerals and has staked out a num-
ber of promising claims, with ap-
parently great potential wealth in
gold, copper, nickel, zinc and vanad-
ium. She now lives on an island in
Herb Lake, seven miles from the
nearest community, where she traps
and hunts in winter and prospects
in summer. No phase of pioneer-
ing is foreign to her experience.

If Miss Rice's object was to get
away from the monotony of being
comfortable she has certainly ac-
complished her purpose.

**CANADA WORLD LEADER
IN SMELT FISHERY**

Canada's smelt fishery, prosecuted
in Atlantic Coast waters only, is the
biggest in the world, yielding annually
about 75 per cent of the total world
production. In 1928, unrevised sta-
tistics of the Fisheries Branch show
9,789,700 pounds of smelt were landed
by the fishermen of the Maritime Pro-
vinces and Quebec, or 2,546,800 pounds
more than in 1927. New Brunswick
led in catch.

Smelt are marketed fresh or fresh

frozen and very large quantities are
exported to the United States. Out
of the 1927 catch of 7,251,000 pounds
6,155,800 pounds were sold on the Am-
erican market.

**OVER 305 WHALES TAKEN
BY CANADIAN VESSELS**

It may be news to a good many peo-
ple but whaling adds a tidy little sum
every year to the British Columbia
trade totals. Last year 305 whales
were taken by the fleet of six steamers
operating from the two whaling sta-
tions on the British Columbia coast
and were used in the production of
fish meal, fertilizer, and oil. Figurer
covering the value of the 1928 produc-
tion have not yet been finally revised
by the Fisheries Branch of the Depart-
ment of Marine and Fisheries but in
1927, when the number of whales kill-
ed was 47 less than in 1928, the value
of the meal, fertilizer, oil, and whale-
bone obtained was \$211,488.

Of the 305 whales taken last year
the largest number, 140, were of the
finback variety. Eighty-three sperm
whales were killed, 47 sulphur, 21
hump, 13 of the sei variety, and one
bottlenose.

**CANADIAN FISH SALES
BROUGHT \$31,634,000 IN 1928**

Canadian fish sales accounted for
\$31,634,000 of the country's favorable
balance of trade in 1928. When final
figures covering the trade in fish pro-
ducts are also available the favorable
balance on fishery account for the
year will be seen to be still larger. In
1927 the favorable balance of trade
in connection with the fisheries, with
fish products as well as fish taken into
the reckoning, was \$31,045,547.

On the import side of the trade in
fish in 1928 there was a net increase
of \$215,000, as compared with the 1927
business, but the net increase in sales
abroad was more than ten times as
much or a total of \$2,222,000.

During 1928 Canada sold fish to
some 100 countries—British Columbia
canned salmon alone being sold in
more than 25 foreign markets—and
total value of these exports was \$34,-
959,000. Fresh fish accounted for the
largest single total, \$10,927,000, with
canned salmon a good second at \$9,-
227,000. Canned or preserved fish
with a value of \$1,473,000, made up
the largest total among the fish im-
ports which, together amounted to only
\$3,325,000.

**PEARLS FROM CANADIAN
HERRING BRING \$10,281**

Pearls from Canadian herring?
Nonsense? Not nonsense at all.
There is many a string of artificial
pearls worn for adornment in North
America that came from the scales of
herring caught by Canadian fisher-
men in Canadian waters.

The presence of crystals of guanine
on the scales of herring is the explana-
tion, for from these crystals there is
manufactured pearl essence which, in
turn, is manufactured into imitation
pearls.

Reports of the Fisheries Branch at
Ottawa show the manufacture of pearl
essence from the scales of the humble
herring as one of the interesting by-
products operations of Canada's fish-
ing industry, and one which is likely
to become of increasing value. So
far the production of the essence is
carried on only in Southern New
Brunswick, but herring scales for use
in its manufacture are also gathered to
some extent on the British Columbia
coast.

In 1927, for example, 1,000
hundredweight of scales were marketed
by British Columbia fishermen. In
the same year 1,820 hundredweight
were marketed in New Brunswick for
manufacture into pearl essence. The
return to the fishermen in the two
provinces was \$10,281, which is not
a very large sum, it is true, but is a
fairly tidy amount to receive for some-
thing which a few years ago was a
waste and nuisance. In producing
the pearl essence, the herring are
then put through a special process by
which the guanine crystals are freed.
These crystals are held in suspension
in ammonia and the pearl essence re-
sults. At present the final processes
of manufacturing the pearls are not
carried on in Canada, but the essence
is exported to the United States.
The pearls have won considerable favor
and there is likely to be increasing
attention to the business on Cana-
dian coasts.

**HOW "OLD LANG SYNE" SHOULD
BE SUNG**

Many people like to sing that old
favorite, "Auld Lang Syne" at the
conclusion of a banquet or social af-
fair, but it is seldom done correctly.
After the first verse there is usually
a bewildering grasping of hands, no
one knowing exactly when to do it.
The verse beginning "Then here's a
hand, my trusty friend and gie's a
han' o' thine," is a flourish the time
for the hearty grasping of hands. Now
let's see you do it right next time!

Here and There

(282)
A fine steel piano wire runs now
1264 miles from Newfoundland to
the Azores. This is not to provide
the mermaids with strings for their
harps, but to measure exactly the
distance between the two points.
A cable was laid recently and it
was impossible to otherwise deter-
mine the precise distance travelled
by the cable-laying ship.

Travellers aboard the Canadian
Pacific Railway's crack summer
flyer, the Trans-Canada Limited,
will be surprised this year to find
colourful upholstery, green tiled
bathrooms, sofas, settees, a glassed-
in conservatory and other unusual
features. Special sleeping, dining,
and lounge-solarium cars have
been designed and built at the
company's Montreal Angus shops
for this de luxe transcontinental
train, which will be one of the
fastest and finest long distance
trains in the world.

Construction of the 18-storey
Marine Building on the corner of
Burrard and Hastings streets, in
Vancouver, has begun. When com-
pleted this will be the tallest
building west of Toronto, where
the greatest building, the new Royal
York Hotel, of the C. P. R., is 23
storeys in height.

A monument to one of the build-
ers of Canada is planned for Van-
couver. Sir William Van Horne,
first general manager and second
president of the Canadian Pacific
Railway, was responsible for the
selection of Vancouver as the
western terminus for the trans-
continental line; a decision that
resulted in the growth and pros-
perity of Canada's second greatest
seaport; and the citizens of the
city propose to commemorate his
foresight.

Every year the Canadian Pacific
spends about \$2,000,000 in advertis-
ing its services and Canada's indus-
trial and tourist attractions
throughout the world.

In view of the present prosperity
of Canada and of the Canadian
Pacific, it is amusing to recall the
item published in London Truth
over forty-five years ago. "The
Canadian Pacific Railway," it runs,
"has begun to launch its bonds.
This railway, if it be ever finished,
will run through a country frost-
bound for seven or eight months
of the year, and will connect with
the eastern part of the Dominion
a province which embraces about
as forbidding country as any on the
face of the earth. British Colum-
bia is a barren, cold mountain
country that is not worth keeping.
It would never have been inhabit-
ed at all unless by trappers of the
Hudson Bay Company had 'gold
fever' not taken a party of adven-
turers there. Fifty railroads would
not galvanize it into prosperity.
The much-touted Manitoba settle-
ment will not hold out many years.
The people who have gone there
cannot stand the coldness of the
winters. Men and cattle are frozen
to death in numbers that would
astound the intending settler if he
knew, and those who are not killed
outright are often maimed for life
by frostbites."

Notices of entertainments, meet-
ings sales, etc., at which admission is
charged, articles sold, or collection
taken, with the exception of actual
church services, will be charged for
at the regular advertising rates.

Radium gives off three kinds of
rays; alpha rays, or rapidly moving
atoms of helium; beta rays, the
atoms of electricity, and gamma rays,
similar to X-rays.

A pound of honey is produced by
the hard labor of over 500 bees
working throughout their span of life.

Town & District

Phone 12 when you have any news.

Aren't these fine April showers.

Yes, send or phone 12 any news you have.

C. Allen was in from Queenstown last Monday.

F. K. McKay and Roscoe were visitors from Calgary over the week end.

Peter Maclean and Master Hector came down from Calgary Saturday to spend the week end.

Miss Myrtle Budd, who has been spending the winter in Vancouver has returned to Gleichen.

Lorna Corcoran, who has been ailing with chickenpox for about a month is now rapidly recovering.

Chas. Gagnon and family of Cluny are now located at Falher. They still want to read the CALL regularly.

Elmer Bolinger, who is attending school in Calgary, visited his parent at Gleichen Saturday and Sunday.

Mr. and Mrs. J. Neils' little child is recovering from an attack of pneumonia.

Mrs. Wm. McConnell returned home to Gleichen and is recovering nicely from her recent surgical operation.

You will be able to recognize some of our Indians next Wednesday and Thursday night in the movies.

All will want to see the motion pictures of our Blackfeet braves next week, May 8 and 9—"His Destiny".

Orland Lyon is now issuer of marriage license and thinks there is an opening in town for a store that carries Bibles.

Miss Irene McBean, who is taking a course of nursing at Calgary, visited her parents Mr. and Mrs. Duncan McBean last week.

The little child of Mr. and Mrs. Varndell has been serious ill with pneumonia, but is reported improving, another of their children is also far from well.

A short circuit near the railway track Sunday evening put the electric light out of commission for a few hours.

T. W. Scott is making good progress in building the new 40-foot addition to the Masonic Hall, which will house the guns for the 22nd Battery.

A novelty baseball dance is to be given in the Queenstown Community Hall on Friday, May 10th, to which all the world is invited. Be there and give the boys a good season's start.

For sometime past the popular Cluny Gun Club have been disposing of tickets for a dance in that town of Friday, May 24th, for the purpose of creating a building fund and are offering a prize of a Standard Grade Winchester pump gun to be drawn for that night.

A pretty fair trimming was received by the Gleichen Live Wire Trail Rangers when they played the Cluny Ever-Ready Trail Rangers in the first baseball game of the season to a final score of 16-4 in favor of the Cluny team. Although it was a snappy game, the scoring was mostly on the one side. Bob Crindle was the umpire and Lawrence Leavens acted as scorekeeper. A return game will be played on the Gleichen diamond this week, weather conditions permitting.

Kathleen Greene, the little twelve year old Calgary girl, who so delighted a large audience in the United Church with her recital of "Pollyanna" a few weeks ago will make a return visit to Gleichen on Friday, May 17th, when she will recite "Captain January". This is by far the most difficult story the little lady has yet attempted, but those who have heard it are agreed that by all odds it is even better than her "Pollyanna" recital. There is no doubt that Kathleen will be greeted with a full house on her return, May 17th.

HOUSE—HARRIS

A very quiet wedding was solemnized at the United Church Manse on Monday evening, April 29th, when Rev. C. R. Corcoran united in marriage Mrs. Mildred Ida Harris of Wayne, Alberta, to Mr. Charles Samuel Clyde House, son of Mr. and Mrs. Glen C. House. The happy couple will reside on the groom's ranch in Crawling Valley northeast of Gleichen.

OBITUARY

A deep gloom was cast over the entire community on the afternoon of Monday, April 22nd, when it became known that Viva Birdie, daughter of Mr. A. L. Ingraham of Arrowwood, had been suddenly called by death. The funeral services which were largely attended was held at the Ingraham home on Wednesday, April 24th, Rev. C. R. Corcoran was assisted in the service by the Rev. R. C. Martin of Arrowwood and Rev. J. A. Gunn of Calgary. During the service Messrs. Shearer, Lyle, Martin and Saunders sang very appropriately, "I have heard of a Land." The pall-bearers were Messrs. Paul Jones, Louis Jones, Richard Lyle, Howard Slater, Cecil and DeForest Lyon. Interment was made in the Arrowwood cemetery.

The late Viva Ingraham was born in Boston, Mass., on April 26th, 1907. At the age of three years she came with her parents to Alberta. From 1916 to 1924 the family lived in Gleichen and Viva was a pupil of the Gleichen School. In 1924 the family moved to Arrowwood where they have since resided. In 1926 she entered Calgary General Hospital to train as a nurse. After a year and a half of training she was forced to give up her course owing to impaired hearing. Viva's pleasant disposition and great desire to help others won for her a host of friends among both young and old where ever she was known. She was a member of the Arrowwood United Church. Her mother predeceased her September 22nd, 1927. She leaves to mourn her loss besides her father, three sisters, Mrs. Douglas Richards, Mrs. Robert Beacom and Verna and one brother, Boyden all of Arrowwood.

Floral Tributes

Ward; Isabel Shearer, Opal Vance and Alma Elkins; M. P. Norton and family; Mr. and Mrs. C. H. Hall.

It would seem that Mr. Ronald Morrow is having more than his share of trouble. On April 10th, his young wife passed away and last Saturday his 18-month old boy died after a brief illness. The funeral of the little fellow took place Sunday afternoon. The services were held by Revs. Corcoran and Lyle in the Gleichen United Church, which was well filled with relatives and friends, and some twenty autos followed the remains to the cemetery. Much sympathy is expressed for Mr. Morrow in his loss and also Mr. and Mrs. G. T. Jones, his late wife's mother and father. Beautiful floral offerings were contributed by Mr. and Mrs. and Miss Vivian Brown, Mr. and Mrs. Eli Woods. Mr. and Mrs. H. Scott, Cradle Roll, United Church and a pillow from Mr. and Mrs. G. T. Jones and the father.

The farmers are wearing their broadest smiles late—rain.
